BOMBING DENVER WITH LITERATURE

(By Associated Press) DENVER, Oct. 5.—A large army battle plane flew over Denver today, bombing the city with missives urging subscription by residents to the fourth Liberty loan.

The plane ended a flight here of more than 1000 miles. It came from Ellington, Tex., from whence it started October 3. It followed closely the route of the Colorado and Southern railway in Colorado.

The route of the plane follows: First day—Bryan, Waco, Fort Worth, Wichita, Falls, Quanah, Amarillo, Tex.

Second day—Texline, Raton, N. M.; Trinidad, Pueblo, Colorado Springs, Colo.

Third day—Denver.

CHEW CHOCOLATE AS THEY FIGHT

(By Associated Press) WITH THE AMERICAN FORCES IN FRANCE, Oct. 5.—American aviators who use tobacco take with them on flights cakes of chocolate to nibble upon in the place of snokes. A few prefer chewing gum, but some form of sweets accompanies nearly all Americans when starting on a flight of any duration.

William E. Brotherton, of Guthrie, Illinois, an aviator who is credited with at least one boche airman, said recently that in August during an encounter with several German flyers in the region of the Vesle he was chewing chocolate as he fought.

TONOPAH DIVIDE SHIPS BY WAY OF KLONDIKE

The Tonopah Divide is now working with its new electric equipment along lines of the most intensive development arranged during the recent visit of H. C. Brougher and George Wingfield. The shaft will be sunk another 100 feet and development will be conducted on all three levels by means of a series of raises sent up every fifty feet from which drifts will be run. The company will ship between two and four carloads a week by team or motor truck by way of Klondike and thence by rail to the Goldfield Consolidated mill. This will come from development alone but after a while it is expected that the quantity will be increased by stoping. The discovery on the Gold Zone confirms the belief that the Tonopah Divide has the ledge for a distance of between 800 and 900 feet running from the south-east face to the southeast end line. The bottom, or 370-foot level, looks better than any of the other levels, since it is believed the values are more uniform and that this condition will improve with depth. The shaft will not stop at the 470-foot point but will probably keep going. The company employs about twenty men but, next week when the sinking begins, the force will be increased to thirty. The company furnishes room and board at the Divide for \$40 a month and is paying the Tonopah scale.

ARMENIANS SUFFER FROM MOSLEM RULERS

WASHINGTON, D. C., Oct. 5.—One of the most deplorable stories of the war comes to us from northwestern Persia, that portion which is the homeland of the Assyrian people. A band of no less than 45,000 refugees, driven out of the city of Urmia by the Turks and Kurds, are making their way across the plateau of Iran, toward Hamadan, where they hope to find safety within the British lines. Perhaps a third of this number are fighting men. The rest are women, children and old men. When the Turks made their first attack upon them in Urmia, a month ago, they slaughtered about 15,000. Now they are pursuing the others with incredible fury, killing all that they can lay their hands on, burning villages, destroying crops, and devastating the country.

But the Turk is not the only enemy with which these refugees have to contend. There is the unhealthy climate, the risks of sleeping out of doors through damp nights, lack of food and clothing, and the foul drinking water. Recently an epidemic of cholera swept through the little army and wiped out a great number. One of those who died was an American, Dr. William A. Shedd, president of the American college in Urmia.

This forced flight is not the first outrage perpetrated by the Turks in Assyria since the beginning of the war. Early in 1915, they began a series of systematic massacres. About 20,000 were put to the knife within a few days, and 30,000 were thrown into prison, from which they were later released by Russian troops. There was a second reign of terror in 1917, and a third during the month of March, 1918, when the attacking Ottomans were led by German officers. It was during the March atrocities that Mar Shimon, patriarch of the Nestorians, was slain by Turkish soldiers.

MIZPAH LEASE TAKEN OVER BY "JOE" WHITE

The Mizpah hotel lease changed hands this morning with the result that Joseph F. White assumes full charge of that establishment, George Hickernell, with whom he was formerly associated will visit his former home in Pennsylvania and look up some of his relatives. The change will be a surprise to most of the patrons of the house, who will wish the new manager the best of good fortune. "Joe" White brings to the business the benefit of a wide acquaintance and, with his genial personality, there is no doubt about the house enjoying a long and prosperous career.

GEORGE LEWIS BUYS MINERS DRUG STORE

George Lewis, who has been conducting a business on Main street near the corner of Brougher avenue, has taken over the business and lease of the Miners' drug store, formerly owned by J. A. Uhlend and will at once transfer his stock of stationery, tobacco, cigars, candy and ice cream to the new store in the bank building across the way. Mr. Lewis proposes to make many improvements and will aid to continue the high pharmaceutical standards of his predecessor with a licensed pharmacist in charge of that department.

The Prohibition Amendment
Published in This Issue

The prohibition Amendment to be voted on at this coming election is published in full in this issue on Page 3. You will note the drastic features provided in Section seven, also Sections fifteen and sixteen which provide that the Superintendent of THE STATE POLICE and his deputies are directed to enforce the same. You will note that this amendment will prohibit the use or having in your possession any liquor whatsoever for any purpose.

President Wilson now has full authority to restrict or prohibit the manufacture or sale of liquors in all cases where he considers such action necessary to aid in winning the war.

We have entrusted him with the widest discretion and greatest powers in all other important matters relating to the prosecution of the war, why not trust him in this matter?

STAND BY THE PRESIDENT.

SUICIDE HAD NICE BALANCE IN BANK

A verdict that Fred Hasche came to his death by a gunshot wound self-inflicted was rendered by the coroner's jury this morning after Justice Bunseath had empaneled the men and viewed the remains. The evidence indicated that the man fired the fatal shot at 1:30 Wednesday a. m. No new evidence was adduced and nothing was learned regarding the antecedents of deceased, except that he was of thrifty habits and worked steadily and saved his money. A deposit slip showed he had a balance of \$599 in the bank and besides had his check for last month calling for \$159 still in his clothing while still another pay check is coming to him from the Tonopah Extension. The funeral will be held this afternoon at 4:30 and interment will be in the local cemetery.

NYE COUNTY HAS BIG SILICA MINE

Nye county has developed a new industry at Beatty where the Western Silica Mining company is opening up one of the greatest known deposits in the country, running 98 per cent pure. The company has erected a mill, 60x120 feet, with crushing machinery for pulverizing the rock and an aerial tramway 2000 feet long is in operation between Financier mountain and the mill. The location covers twenty-two claims formerly held for tinna-bar and are nine miles east of Beatty, two miles below Regan's and four miles from the railroad. The company expects to net \$6 to \$8 a ton.

COMMUNITY SINGING TO BE STARTED IN TONOPAH

Mr. Arthur Burrows requests all citizens interested in community singing to meet with him at the Presbyterian church at 2:30 tomorrow afternoon to rehearse American national songs as well as the songs of our allies for use in patriotic meetings, which will be given under the auspices of the Nye County Council of Defense.

He also desires the vocalists from the various church choirs to attend at the same time to arrange a musical program for the exercises to be held over the remains of Elmer Bell at the Alderson next Wednesday morning at 9 o'clock.

GOES TO REFORM SCHOOL

Willie Jacks, the Indian murderer, will be taken to the reform school Monday morning. He has been kept in the county jail pending an examination and investigation which was expected to lead up to sensational developments.

PERSONAL

HUGH HENRY BROWN left this morning on a flying trip to Philadelphia.

PROF. ELLSWORTH BENNETT went to Reno this morning to attend the conference of mining school principals.

JACK GRANT, chief of police, will leave this evening by auto to testify in a narcotic case called in the federal court.

HENRY BARTLETT, who has been here visiting his mother who is quite ill, returned to San Francisco this morning after spending ten days here.

VICTOR FECHHEIMER, income tax inspector and Stan. Mitchell, special income tax agent are both confined to their rooms in the Mizpah hotel suffering from severe colds which seized them this morning.

F. A. WAIT, chief of police of Las Vegas, accompanied by Indian Agent Sandan of Moapa, and William Hamner, went through this morning en route to Carson City to testify in a bootlegging case.

U. S. BOYS' WORKING RESERVE WILL WEAR A UNIFORM

Thousands of American boys below draft age will soon be wearing an official United States uniform. Secretary of Labor Wilson has authorized and the war department has approved an olive drab uniform which may be worn by all members of the United States boys' working reserve.

Already there are many units of the boys' working reserve throughout the country which have been awaiting the announcement of the official dress of the organization and many more units which will be organized as a result of the proposed expansion of the reserve under the co-operation of the war department. These will at once discard "unfit" for the olive drab of the reserve uniform.

WARMEST DAY LAST YEAR

Today one year ago was the warmest day in October in the records of Tonopah as the mercury reached 81 during the afternoon. Today the temperature at the highest was 63.

Date of last publication: October 26, 1918.

NEVADA CROPS DAMAGED BY HEAVY STORMS

The weekly crop report for Nevada states the condition as follows: Rains damaged hay and grain partly stacked and in the fields and delayed thrashing which was nearing completion, but were beneficial to potatoes, pastures and ranges. Cattle and sheep holding their own; large shipments continue to eastern and western markets.
